

In the fast-paced digital landscape of today, reliable internet connectivity is more crucial than ever. We're excited to share how our fiber broadband service is revolutionizing the way you connect and interact online.

- **Speed Redefined:** With fiber broadband, say goodbye to buffering and slow loading times. Enjoy lightning-fast speeds that keep up with your demands, whether it's streaming your favorite shows or video conferencing with colleagues.
- **Reliability at its Core:** Fiber optics transmit data using light, resulting in a more stable and consistent connection. No more interruptions during critical tasks or online gaming sessions.
- **Future-Proof Infrastructure:** Our fiber network is built to accommodate the evolving needs of tomorrow's digital landscape. Experience the peace of mind knowing that your connection is ready for whatever the future holds.
- **Seamless Uploads and Downloads:** From sharing large files to uploading content to the cloud, fiber broadband ensures swift and efficient data transfers in both directions.

At OEConnect, we're committed to delivering unparalleled broadband experiences that empower you to do more, achieve more, and connect more seamlessly than ever before. Join us in embracing the future of connectivity with fiber broadband.

Call Before You Dig

As the energy of Spring and Summer projects fills the air, it's easy for customers to overlook the essential step of having their property lines marked before embarking on landscaping endeavors or digging in their yards. With numerous utilities hidden underground, any accidental contact can pose serious risks during work. It's crucial for both homeowners and contractors to prioritize safety by dialing 811 before commencing their projects. This simple action ensures that all underground lines are properly marked, averting potential hazards.

If you're a recipient of our fiber service with lines buried in your yard, you can request our team to come out and mark your fiber line, ensuring its safety amidst your landscaping ventures. If a line is hit during a project, please note that there will be a charge included for the repair.
